MEMORANDUM FOR: Executive Secretary, NFIB

FROM

: [REDACTED]
Chairman

SUBJECT : National Technical Threat Estimates 1976-1981

1. This memorandum forwards subject report for the information of the Board. The report is intended to provide a concise estimate of technically practical audio and video surveillance devices.

2. The estimate describes technical characteristics expected to be representative of the majority, possibly 90 percent, of the devices that may be encountered based on present technology. Projections of likely technical developments over the next five years are included. This report will be of value to those responsible for the management of the security program as well as to the specialists who conduct technical security inspections and surveys.

3. For additional copies please contact your representative on the DCI Security Committee's Research and Development Subcommittee or [REDACTED]
